Change to QEHS Certification Body for VWR International

VWR International Europe bvba and all subsidiary sites are changing their certification body from Bureau Veritas to DQS GmbH.

VWR International sites have been certified for a number of years to combined quality, environment and health & safety standards ISO 9001, ISO 14001 and OHSAS 18001 by Bureau Veritas under certification number UK007122, with certifications valid to 25 June 2018.

VWR International sites will now be certified to the same standards and for the same validity date of 25 June 2018 by DQS GmbH, under certification number 530840.

DQS GmbH has its main office in Frankfurt am Main and regional offices in Berlin, Stuttgart, Hamburg and Munich. With the high level of expertise of about 800 auditors in Germany and more than 2,500 worldwide, the group accompanies and supports organizations all over the globe using mainly external auditors. Their auditors are practicing experts with many years of practical experience and sector know-how, who with their value-adding assessments contribute to the improvement of their customers' performance ability.

Certification with DQS also brings with it certification to IQNet.

We are currently in the process of changing certificates, and all associated marketing and publication material to reflect the change in certification body.

Please note that change of VWR's certification body has no impact on customer's business.

Any questions regarding this notification please contact your local VWR QEHS support.

Our certificates can be found at the bottom of your local VWR webpage under the menu item Compliance & Certification:

VWR (NASDAQ: [VWR](#)) is a leading global, independent provider of products, services and solutions to laboratory and production facilities for customers in the pharmaceutical, biotechnology, industrial, education, government and healthcare industries.
